

Invitation

The National Institute for Research & Development in Chemistry and
Petrochemistry – ICECHIM Bucharest

organizes

The exploratory workshop
NeXT-Chem
Innovative cross-sectoral technologies

dedicated to young researchers (MSc, PhD students)

IIIrd edition

ROMANIA – Bucharest
27-28 MAY 2021

The National Institute for Research & Development in Chemistry and Petrochemistry – ICECHIM Bucharest invites you to participate in the exploratory workshop - NeXT-Chem, IIIrd edition, which will take place online, between May 27-28, 2021.

The workshop is addressed to young researchers (MSc, PhD students), and participation is free.

We are pleased to announce that in this edition, several international personalities will present guest lectures, including:

- Prof. Silvana Andreescu, Clarkson University, Potsdam, SUA
- Prof. Arben Merkoçi, Institut Català de Nanociència i Nanotecnologia, Barcelona, SPANIA
- Prof. Luc Pincton, Université de Rouen, Rouen, FRANȚA

Workshop sections:

	Indicative
1. Multifunctional materials and nanocomposites	1 - MMN
2. Bioresources, Biotechnologies and Biorafinary	2 – BBB
3. Innovative technologies and cultural heritage protection	3 – TIPPC

It is highly recommended that the presentations do not exceed max. 15 minutes, taking into account the time allocated to Q&A. The order of the presentations will be established according to the program.

Deadlines

17.05.2021 –Registration and Abstract submission

Acceptance notifications will be sent within 2 days from the date of receipt of the abstract. Workshop registrations are made **online**, *additional details can be found at:* <https://icechim.ro/ro/institut/next-chem/>

In order to participate, please complete the Registration form **in full** and comply with the mandatory abstract requirements (available online).

The workshop will be conducted in English.
